Chorus:

I'll never step back
I'll let no one attack
What I feel inside
What goes on my mind
What I feel inside
What goes on my mind
That's the way I'll keep my soul bright and high
I'll always be myself
I won't copy someone else
Cause nowadays u gotta fight
Fight for getting your own right
Nowadays u gotta fight
For getting your own right
That's the rule I use to live my own life

To be a story
Never be boring
That's what they look for
Look for a legend
And though it's kinda hard
Hard to prove this part
I'll do my best to show 'em what I GOT

Be a true lady
Always be ready
For getting higher
Dancin' like fire
That's what they ask for
A cool outrageous girl
And I am the one
Who'll prove 'em what they want

I'll never step back
I'll let no one attack
What I feel inside
What goes on my mind
What I feel inside
What goes on my mind
That's the way I'll keep my soul bright and high
I'll always be myself
I won't copy someone else

Cause nowadays u gotta fight
Fight for getting your own right
Nowadays u gotta fight
For getting your own right
That's the rule I use to live my own life

Fancy Glasses
Glamorous dresses
People think it's hot
But it aint enough
The heart is a thing
Mind's the real bling
I appreciate this in life
Cause I'm the one who finds
What I really need
Which's my deepest dream
What's inside my soul
Or if I want more
That's how everyone
Should act around
And now everybody
Scream aloud and party!!!

Chorus(...)

It's our time to change the things
CAUSE we don't know what tomorrow brings
It's our time to change the things
Cause we don't know what tomorrow brings

I'll never step back
I'll let no one attack
What I feel inside
What goes on my mind
What I feel inside
What goes on my mind
That's the way I'll keep my soul bright and high
I'll always be myself
I won't copy someone else
Cause nowadays u gotta fight
Fight for getting your own right
Nowadays u gotta fight
For getting your own right
That's the rule I use to live my own life
