[Verse 1]

I fell by the wayside, I fell on my knees  
Crying, why was I so hard to please?  
I stood at the crossroads, took a long look at me  
Sometimes you don't know where you're from till you  
leave

[Chorus]

And I've been out there searching  
For a place where I belong  
And on my way I heard my song  
Let it sing me home

[Verse 2]

Sun on my shoulders and the wind at my back  
Bound and determined to get back on track  
To where the heart is, where it's been all along  
Sometimes you don't know what you've got till it's  
gone.  
Gone gone gone

[Chorus]

And I've been out there searching  
For a place where I belong  
And on my way I heard my song  
Let it sing me home

Yeah yeah yeah yeah yeah yeah

[Chorus]

And I've been out there searching  
For a place where I belong  
And on my way I heard my song  
Let it sing me home
