[Verse 1]

We're out here on the road we know there'll be no
going back
And all we see are miles ahead, but we're right on track
yeah
Come from the south, we're heading north, been going
day and night
Going down that highway, heading out of sight yeah

Doing all right got the wind at our back
Having such a good time following that white line

[Chorus]

Oh there's an answer waiting for us down that road
Yeah that freeway that's the only home we know
No time for slowing down, no there's just another town
to find
Following that white line

[Verse 2]

Got a long long way to go to get to where we need to
be
Just like a band of gypsies, yeah we're wild and free
Break off the chains that hold us down gonna find a
better way
We only live this one life, live for today

Doing all right got the wind at our back
Having such a good time following that white line

[Chorus]

Oh there's an answer waiting for us down that road
Yeah that freeway that's the only home we know
No time for slowing down, no there's just another town
to find
Following that white line

On down the road we go how much you wanna bet
A better day a-coming we see it up ahead.

[Chorus]

There's an answer waiting for us down that road
Yeah that freeway that's the only home we know
No time for slowing down, no there's just another town
to find
Following that white line
Yeah we're following that white line
Following that white line
