No I don't wanna say goodbye
But I can't walk with you whole you go off to die
No, no I don't want to be alone
But I can't keep playing like nothing's wrong

(Chorus)
But I lied to you to protect myself
To protect my life
I denied my Christ
I lied to you to protect myself
to protect my life
I denied my Christ

What kind of friend would I be
and would you believe that I cared
If I found eternal life
And I refused to share

No more playing along
The truth can't be hid for long
And I'm not gonna hide it anymore

Leave me out of your communion
I want no part of your suicide
Drink up drink up drink all the poison
If you're so sure that you'll survive
If you're so sure!
I can no longer live the way I once lived
and pretend that Jehovah's strength is something I did
If you cast Christ out
May i be cast out too,
Your life's in danger and I always know
