It's not just a game to me
Look at all those happy players!
Oh, they're standing close to me
I don't mind being picked last
If I can be on the winning team
I'd like to be on the winning team
They say it's how you play the game
I don't think I'd like to lose
But I Know I'd like to win

I don't really like games at all
But I don't mind holding the ball
If I can be on the winning team
It's not just a game to me
Look at all those happy players
I'm one of the worst athletes
You could have found
But I don't mind running around
If I can be on the winning team
