[Verse]

You know those days when you look in a cloud
You think you see something then it's gone
Or when you're talkin' and see him walk by
Your thoughts disappear as you look in his eyes

[Pre-Chorus]

I can't believe
What's happened to me
The stars so aligned
And I'm feeling so free

[Chorus]

You do that to me
Heavens above, this must be love love love
You get to me, in so many ways, I'm in a daze
From the moment we met, I was yours forever
You do that to me

[Verse]

You know those times when you're looking for love
It takes you by surprise and one day it comes
When you feel something deep down in your heart
Hold on to that someone and make it all start

[Pre-Chorus]

I can't believe
What's happened to me
The stars are all shining
And I'm starting to see

[Chorus]

You do that to me
Heavens above, this must be love love love
You get to me, in so many ways, I'm in a daze
From the moment we met, I was yours forever

[Bridge]

But I don't know why, I couldn't see this before
That being in love meant so much more
Cause when I'm with you, you do that to me
You do that to me, this must be love

[Chorus]

You do that to me

Heavens above, this must be love love love

You get to me, in so many ways, I'm in a daze

From the moment we met, I was yours forever

You do that to me
