Take Me Home I'm Begging You  
I've been be lost without you  
lost at sea without you with me and  
I'm begging for change to get home

See I've been late to everything  
I can't set my head straight

So can you run away with me  
Lets pack our bags and we will be gone forever  
let's have our happy ever after  
Lets scream from the mountain tops  
We won't be young forever so let's run away tonight

My feet our begging for mercy  
because I've walked for hours to get to you  
But your sweet smile  
Makes everything alright and  
I want it for the rest of my life

So can you run away with me  
Lets pack our bags and we will be gone forever  
let's have our happy ever after  
Lets scream from the mountain tops  
We won't be young forever so let's run away tonight

Run away with me  
Lets pack our bags and we will be gone forever  
let's have our happy ever after  
Lets scream from the mountain tops  
Can we be together forever  
Forever's not long enough

Take Me Home I'm Begging You  
I've been be lost without you
