It was a routine stop
Cop tried to fill a quota
And it would have been
Then again he wasn't sober
He pull over to the shoulder
Kept the gears in drive
Its like he been here before
This ant his first time
Dark skies with bright lights
The red white and blue
Staying calm with sweaty palms
Knows exactly what to do
As soon as he leave the car
He goin take off
He goin take another chance before he take another
loss
On ya mark
Get, set, go
Pedal to the floor and be out
And then he dip from the five 0
By the time poe poe gets back to the door
Open, sit, close, shift gears
Way the f**k up outta there
Yeah
And as the years pass
Its Karma that catches up to his ass
Going too fast and know it won't last
When they take it all
The lord is all that he still has

Don't ever let go
Keep on trying
Keep on fighting
Don't ever give up
Let your feeling show

You have what it takes
Prove them all wrong
Rise and be strong
You have what you need
Make your dream come true

Twenty something
Still hungry for something more
Fresh out
Stressed out in front of the corner store
Ear to the floor
He can hear the streets talking
Like he can hear the Lord calling
Wouldn't put nothing before him
he could not handle
Only made him stronger
Its nothing he can't do
Plan is inevitable
Never to lose
Keep on moving like there's something
He gotta prove
The truth is
He try to live for the moment
Rise to the occasion
Keep on flowing
Keep on going like its all he know
Until the day that He take him home
He see the devil in the flesh when he see his own
reflection
Stressing over right and wrong
The Lord test him
The question be
What is your will
What is your destiny
What is it you want him to see
to be what you want him to be

Don't ever let go
Keep on trying
Keep on fighting
Don't ever give up
Let your feeling show

You have what it takes
Prove them all wrong
Rise and be strong
You have what you need
Make your dream come true

This is not about me...
This is all about you...
This is about what you can change and all the things
you can do...
It's about the gifts inside that are just dying to
break through...
This is what all your sacrifices have been building up
to...

And you can shine so bright...
And you can light up this life...
With just one smile make everything alright...
You put up such a good fight...
Even in all your losses...
Even when everything was all that it cost...
And when you felt lost, you always found a way back...
Always defending, under constant attack...
Youâ€™ve given so much love...
Itâ€™s time for you to get some back...
Time you made some of these matters..
Some matters of fact...
And you been working so hard...
All your dreams all your passions...
Time to turn these words into everyday actions...
Donâ€™t ever let go..
You gotta keep on trying...
Youâ€™re so close now, you feel it?
Thatâ€™s you flying...

Don't ever let go
Keep on trying
Keep on fighting
Don't ever give up
Let your feeling show

You have what it takes
Prove them all wrong
Rise and be strong
You have what you need
Make your dream come true
