

Mekanism "Collide"

Visit "[Collide](#)" on MotoLyrics.com

the skyline calls
and carries a voice through time
a lone tear falls
and echoes in my mind

waking
the sleeping ghosts inside
take my hand
and let your coils unwind

together we can open locks and doors holding
silent pain inside you hostage
we will travel deep to find the unspoken
fear your eyes can't hide
and as you cry
my heart and your tears collide

THE SKYLINE FALLS
HEAR THE ECHOES DIE
SUPPRESSED INTO SILENCE
hear me
take my hand
i'll never let go

together we can open locks and doors holding
silent pain inside you hostage
we will travel deep to find the unspoken
fear your eyes can't hide
and as you cry
my heart and your tears collide

so hear my plea
and open to me
cause without it you'll never be free
NEVER FREE!

together we can open locks and doors holding
silent pain inside you hostage
we will travel deep to find the unspoken
fear your eyes can't hide
and as you cry
my heart and your tears collide
