Emerge from darkness
A light so blinding
There's one more aching dawn
Break through this prison (BREAK)
My prison (THE)
Our prison (CHAINS)
Bleed til the venom's gone

We're withering
Crushed by the sin
I know the waves are crashing in
I finally see this usury
Together we bleed

Cold is the casket
Of your dignity
Cold and buried deep
You're a scavenger (EAT)
Scavenger (THE)
Scavenger (FLESH)
Of rotting remains

We're withering
Crushed by the sin
I know the waves are crashing in
I finally see this usury
Together we bleed cuz this is

Our last day
And the sun fades away

You knew the way and you led me astray
You thought that i would never find a place to hang
your shame
And now you watch your castles burn
Baby this is what we call the point of mothafucking no
return

We are the remnants of a fire
The ashes trickle down as faint memories
Follow the path of delusion
To the deathbed of a shattering dream

I can't put together the pieces
The curtain rises, the stage is set
For our last day

We're withering
Crushed by the sin
I know the waves are crashing in
I finally see this usury
Together we bleed, together we bleed
And here we are
Two lonely stars
And i still see your light from afar
Burn my scars, it's all i need
Together we bleed cuz this is

Our last day
And the sun fades away
