Tell me little love, why do you treat me cold?
Why in nightly dark it's dark against your soul
Do you let this season?
When is gone is gone,
Never know if sun or rain still or fall,
you're running away from me (Ä—i¼")

Oh you know you're so beautiful to me
Even when you hurt, you hurt tenderly
know I'm on your string and I'm on your ring
Someone tell me fool , while I'm bending.
You're running away from me (Ä—i¼")

There so much things I could do for you
If you only let me try to do
Why do you say to love me?
If then you cry on your truth

No, you feel that you lose the time and you search in
me
No, you feel that you lose again my darling
What you thought to whatever win , but I sweet
I know everything my darling, and i sweet
