Leave the girl, she is'nt worth the time' no regrets,
you'll find out that im right, im thinking about it, and
how it came along, and now i've decided to move on.

She's leading you on, your trapped in her lies, your
trying to make it work, but its a waste of time, walking
up and down, not knowing where to go, no regrets, no
regrets !

Leave the girl, your in your own little world, these little
lies, these are the things I despise, you know as well as
I do, she is'nt right for you, no regrets, no regrets !

Nothing personal, your better off on your own, no one
else understands, you've got no where to go, walking
up and down, thinking where it went wrong, no regrets,
no regrets !

Leave the girl, your in your own little world, these little
lies, these are the things I despise, you know as well as
I do, she is'nt right for you, no regrets, no regrets !

Im thinking of you, you're living in the past, at the end
of the day, I knew It would'nt last, on the other hand,
you moved on pretty fast, no regrets, no regrets !

Leave the girl, your in your own little world, these little
lies, these are the things I despise, you know as well as
I do, she is'nt right for you, no regrets, no regrets !
