Long ago and faraway
You were held in another place
And you were whispered sweet words of peace
And you were wrapped in the Arms of Mercy
Soon you won't remember those days
Soon you won't recall His voice or His face
But baby, sometimes if you're still...

Chorus:

You will hear echoes
Heavenly echoes
Reminding you of another time and place
Like waking from an old familiar dream
You will hear echoes

You may have feelings hard to understand
Like you're a stranger in a foreign land
When your homesick spirit feels alone
Remember, remember this was not your first home

Chorus

There may be times it seems
Heaven never happened
But baby, there will be angels
Waiting to send you

Chorus
