Dm - Dm7

Well I know just where she's goin  
When she gets dressed up to leave  
He gets the best of her lovin  
She brings the rest back home to me

F

I don't know just how he does it

G

But I'll tell you the bottom line

Bb C

He sure has a way with women

Dm

He got away with mine, he got away with mine

I worked so hard to make it

Wish I only had more time

But the two-time game she ran on me

Just tears me up inside

I call her up late at night

But he's already on the line

He sure has a way with women

He got away with mine

Solo over verse and chorus

I ain't gonna try to catch her

Ain't gonna try to find that man

Gonna find a true hearted woman

Who'll love me for what I am

I think about her now and then

And wonder how she spends her time

The man's got a way with women

He got away with mine

He got away with mine
