She never worries when I'm out late at night
Wonder if I'm where I said I'd be
I made mistakes and I've messed up from time to time
But she knows she can count on me

To be a honest man
Someone she can depend on
A man who's always true
And I can tell you that

She believes in me
She believes in me

I get up early, I go to work on time
Even though I need to sleep
When times are tough she knows we will be just fine
We always have just what we need

I'm not a rich man
But she knows I can
Always find a way
And I can hear her say that

She believes in me
She needs me

And when I come home - And we are all alone
Then I hold her tight " And she shows me why

She believes in me
She believes in me
