Its so difficult, And nothings statistical
You thought it was over
And then you've done a u-turn
Back to where you started (back to where you started)
Snakes and ladders game has started
Roll a die
Take that chance, Yeah
Take that chance, Yeah
One step forward, And three steps back
You want to be safe
Yeah Yeah Yeah Yeah

Back to square one (back to square one)
And you wanna know why, Nothings getting done
Back to square one (back to square one)
And you wanna know why, Nothings getting done
Back to square one (back to square one)
And you wanna know why, Nothings getting done
Back to square one
And you wanna know why, Nothings getting done

Spin the wheel, And pick a number
Put one foot, In front of the other
Dont pass go (dont pass go), Lose a turn
You're out of the game
Pass the point of no return
One step forward, And three steps back
You want to be safe
Yeah Yeah Yeah Yeah

Back to square one (back to square one)
And you wanna know why, nothings getting done
Back to square one (back to square one)
And you wanna know why, nothings getting done
Back to square one (back to square one)
And you wanna know why, nothings getting done
Back to square one (back to square one)

Back to square one X4
