I'll take you
We'll take off
Don't make me ask you please
I've got no inhibitions
You've got your parents car keys
This town's
So pretty
But it's prettier with you
Let's drive out
To the lookout
And waste this perfect view

CHORUS

Let's make these car windows
Get foggy
Let's make 'em worry
'Cause we're out
All night
And we won't even say
We're sorry

You get me
You got me
I love the way how we flirt
It's just you
And my hand with
A fistful of your t-shirt
We don't play
No sappy
I-miss-you-my-love
Ballad
Tonight I'll
Be happy
Tossed around just like a salad

BREAKDOWN
