The calm in the center of a hurricane
Rhythm of a summer rain
Red dawn in the northern sky
And the soothing light of a firefly - as it glows

The moon so large in the hemisphere
Sounds that only dogs can hear
A rainbow that never ends
It goes on and on and on and on

Perfection in a snowflake
Life begins at daybreak
All across the sky
Especially at night - and it shows

The sound of laughter all around
I'm waiting for the moment
The tears of joy on a bridal gown
As it flows

The fresh scent from a baby's head
I'm waiting for the moment
Softly spoken words you said
When I'm around

I wanna solve your mystery
I'm waiting for the moment
A taste of your complexity
Well I'm waiting for the moment

Something more than simplicity
I'm waiting for the moment
If I open my eyes - will I see
I'm waiting for the moment

Yeah waiting, waiting, waiting for the moment
Well I'm waiting for the moment
There's a time and place for you and me
I'm waiting for the moment
From now until eternity
Well I'm waiting for the moment
