

Miguel Migs "Close Your Eyes"

Visit "[Close Your Eyes](#)" on MotoLyrics.com

Feel alright,
Here on night
Feels alright
Here on night
Believe things I wish that I could undo
Everything good like too good to be true, oh
You think there's nothing new under the sun
And there's a piece of you
Coming undone
Close your eyes, step into another time
Rhythm play the music makes me feel inside
Close your eyes, step into another time
Rhythm play the music makes me feel inside
Feels alright just imagine
Here on night just dancing
There we are
Let's leave the world behind
So come with me, just dance with me
Close your eyes, step into another time
Rhythm play the music makes me feel inside
Close your eyes, step into another time
Rhythm play the music makes me feel inside
You think there's nothing new under the sun
And there's a piece of you
Coming undone
Everything good like too good to be true, oh
Close your eyes, step into another time
Rhythm play the music makes me feel inside
Close your eyes, step into another time
Rhythm play the music makes me feel inside.
