"Those Things"

Visit "[Those Things](#)" on MotoLyrics.com

Why must you say those things ? What are you thinking ?

Keep your feelings inside, wait till no one's around, yeah.

I can see this is no good, all you talk about is how I should be.

I've had enough of feeling down, I think I'm going downtown.

What makes you think those things ? What makes you think those things ?

What makes you think those things ?

What makes you think those things you do ?

What makes you think those things ? What makes you think those things ?

What makes you think those things ?

What makes you think those things you do ?

What makes you think those things ? What makes you think those things ?

What makes you think those things ? What makes you think ?

What I do, what I don't, do what I want to.

What you see that I feel, that you're not used to.

What I give, how I live, who I'm close to.

What makes you think those things you do ?

What I say when I'm away, how I know you.

How I look, I never took, I don't owe you.

So anything that I bring, I won't show you.

What makes you think those things you do ?

What makes you think those things ? What makes you think those things ?

What makes you think those things ?

What makes you think those things you do ?

What makes you think those things ? What makes you think those things ?

What makes you think those things ?

What makes you think those things you do ?

Do what I want to do, do what I want to do.

Do what I want to do, do what I want to do.
What makes you think those things ? What makes you
think those things ?
What makes you think those things ? What makes you
think those things ?
What makes you think those things ? What makes you
think those things ?
What makes you think those things ? What makes you
think those things ?

What I do, what I won't, do what I have to.
How I feel what is real, want to show you.
By the way, I don't play, I don't want to.
What makes you think those things you do ?

What makes you think those things ? What makes you
think those things ?
What makes you think those things ?
What makes you think those things you do ?
What makes you think those things ? What makes you
think those things ?
What makes you think those things ?
What makes you think those things you do ?
What makes you think those things ? What makes you
think those things ?
What makes you think those things ?
What makes you think those things you do ?
Do what I want to do, do what I want to do.
Do what I want to do, do what I want to do.
Do what I want to do, do what I want to do.
Do what I want to do, do what I want to do.
