Cleopatra eyes
And the Devil's smile
She's got the voice of a siren
That will drive you wild

With curves to thrill
Better step aside
The Girl on Convict Hill
She's a red lipstick runaway bride

She's the Girl on Convict Hill, yeah
The Girl on Convict Hill
The Girl on Convict Hill, yeah
The Girl on Convict Hill

Is there a tunnel to her crystal heart?
So many try to break and enter
She doesn't need to play the part
Of the girl next door
She's not taking any more
Better keep your distance boy
She's a dangerous toy

She's the Girl on Convict Hill, yeah
The Girl on Convict Hill
The Girl on Convict Hill, yeah
The Girl on Convict Hill
