In the presence of
Kings and queens of silence
Secret stardust love
Fantasy and science

I knew it wasn't love
Now was I yours forever
No intentions of
Hearts to meld or sever

Mirror mirror
What is my gender?
Mirror Mirror

Mirror Mirror
Lover pretender
Mirror Mirror

I'm not alone
The shadows are me
Reflections of home
Close my eyes to see

Your lips were warm and real
How could I know you better?
You showed me how to feel
What a strange endeavor

Mirror mirror
What is my gender?
Mirror Mirror

Mirror Mirror
Lover pretender
Mirror Mirror
