We both could benefit from braces
We both have too much hair in some places
We both like sun and forgot to take cover
And now weâ€™re full of brown spots all over

You and I, we're hot from inside
Gonna burn my tongue when I take a bite
â€™Cause you're steaming hot from inside

You could use a six pack, I guess I could snack less
And we'd both look cool with tattoos on our backs, yes
And how long ago was it, honey, a decade?Â
Since we both got some professional hair aid

You and I we're hot from inside
Gonna burn my tongue when I take a bite
â€™Cause you're steaming hot from inside
