

## **One Less Reason "Kenley 81"**

Visit "[Kenley 81](#)" on [MotoLyrics.com](http://MotoLyrics.com)

If I swing, would you duck?  
If I spit, would you swallow?  
If I stood on the ledge and jumped, would you follow?  
I looked into your eyes and I said you're a liar  
Called you the whore that you are and always will be

Tell me, is it better now that I'm not around?  
That lost love you found

(Chorus)  
All I wanted was you, just you  
Fuck the bullshit!!!  
You were everything I'd ever wanted in a person  
I never, never would've done that and just because I  
lied  
It didn't make it alright

You know I tried, I tried to sympathize  
I looked in your eyes, but I knew you lied

(Chorus)  
All I wanted was you, just you  
Fuck the bullshit!!!  
You were everything I'd ever wanted in a person  
I never, never would've done that and just because I  
lied  
It didn't make it alright

You think you're so much better  
I wonder which face will you show today  
Now your words were so sincere  
Tell me, are you happy?!

Won't you stay another day?  
I felt so betrayed and that's all it takes

(Chorus)  
All I wanted was you, just you  
Fuck the bullshit!!!  
You were everything I'd ever wanted in a person  
I never, never would've done that and just becuz I lied  
It didn't make it alright

You think you're so much better  
I wonder which face will you show today  
Now your words were so sincere  
Tell me, are you...

(Bridge)

Everything was so complacent  
I hope you took a piece of me with you!  
Now I wish I could erase you  
From my memory,  
I lived my life just to see you smile!

If I swing, would you duck?  
If I spit, would you swallow?  
If I stood on the ledge and jumped, would you follow?  
I looked into your eyes and I said you're a liar  
Called you the whore that you are and always will be

When you cringed to my touch  
When I said I was sorry  
Did I enter your mind when you layed down beside  
him?  
When I swallowed my pride, were you laughing inside?  
I called you the whore that you are and always will be
