I donâ€™t want to see your face  
Donâ€™t want to crowd your space  
I donâ€™t want to know where youâ€™ve been  
I donâ€™t want to talk about the government  
No I donâ€™t want to make you happy  
I donâ€™t want to make you happy  
I donâ€™t want to make you happy no more

I donâ€™t want to see your eyes  
Donâ€™t want to witness your smile  
I donâ€™t want to know where youâ€™ve been  
Donâ€™t want to talk about the government  
No I donâ€™t want to make you happy  
I donâ€™t want to make you happy  
I donâ€™t want to make you happy no more

You picked a fine time to leave me  
You picked a perfect time to roll  
You make it seem easy  
When its time to get up and go

I donâ€™t want to crowd your space  
Donâ€™t want to be in your face  
But I donâ€™t want to let go of you just yet  
Could we talk about the government?  
No I donâ€™t want to make you happy  
I donâ€™t want to make you happy  
I donâ€™t want to make you happy no more
