Oh the weather it does change  
Sunshine cloud or rain  
The difference it has made  
And on, and on and on it goes  
Out of our control  
How could we have known?  
And my mama said young relationships would never  
work  
Have to wait till I'm all grown up but it hurts  
It was never quite surreal  
But I just had a heart attack, electric stat, realized that,  
we went flat, all collapsed,  
I know you now wouldn't change that but baby, you  
need to hear me say...

I want you back I should have known better than that  
All the stuff that we've been through  
You can't undo I tried to  
I want you back I should have known better than that  
But all this time I still believe  
You and me We could be  
I want you back

Oh the sunlight you would bring  
Forever comforting  
Was it all just acting  
So now you've gone and gone away  
I saw my last bright day  
You just left me to decay  
And my mama said young relationships would never  
last  
Have to wait for this puppy love phase to pass  
It was never quite surreal  
But I just had a heart attack, electric stat, realized that,  
we went flat, all collapsed,  
I know you now wouldn't change that but baby, you  
need to hear me say...

I want you back I should have known better than that  
All the stuff that we've been through  
You can't undo I tried to

I want you back I should have known better than that  
But all this time I still believe  
You and me, we could be  
I want you back

And I know there's no excuses  
You don't want this confusion  
But I just want to tell you  
This is no delusion  
There's nothing left to lose here  
Everything that I feel  
You and me together I know that was all real

I want you back I should have known better than that  
All the stuff that we've been through  
You can't undo I tried to  
I want you back I should have known better than that  
But all this time I still believe  
You and me We could be  
I want you back
