

Ming Bridges "Under The Stars"

Visit "[Under The Stars](#)" on MotoLyrics.com

Let's take a look, tonight
Look at the dark, bright sky
You are the universe to me
Little looks, little stares
The way you touched my hair,
You have me hypnotized,
I don't want to run out of time,
My heart's in decay,
It doesn't matter anyway

So come on, come on
You're wasting your time with
All of the things you shouldn't be minding
They won't find us,
Where we will be hiding under the stars

So come on, come on
No need for goodbyes, let's
Fly like a fairytale to the sky,
We'll be looking into each others eyes,
Under the, under the stars.

You make me stop,
Make me smile,
You make everything worthwhile
My heart's beating fast
Come on let's make these few moments last
Run away with me,
Baby take my hand, oh pretty please (haha-aaowh)
My heart's in decay,
It doesn't matter anyway

So come on, come on
You're wasting your time with
All of the things you shouldn't be minding
They won't find us,
Where we will be hiding under the stars

So come on, come on
No need for goodbyes, let's
Fly like a fairytale to the sky,
We'll be looking into each others eyes,

Under the, under the stars.

We'll make time for love
Just you'll see be-cause
We'll stop time and then
Fly away from them

We'll make time for love
Just you'll see be-cause
We'll stop time and then
We'll fly away from them

So come on, come on
You're wasting your time with
All of the things you shouldn't be minding
They won't find us,
Where we will be hiding under the stars

So come on, come on
No need for goodbyes, let's
Fly like a fairytale to the sky,
We'll be looking into each others eyes,
Under the, under the stars.
