Hey Marian
Bananas

At The Cyclone
Two Masses of Air
Hot and cold
Really Quik

At The Cyclone
We have a hit
Soda bank is not scent
it smells badly
We Refresh at the cyclone

(Hey Marian) Verse One
Cyclogenesis is the development or strengthening of cyclonic circulation in the atmosphere (a low pressure area).[9] Cyclogenesis is an umbrella term for several different processes, all of which result in the development of some sort of cyclone. It can occur at various scales, from the microscale to the synoptic scale. Extratropical cyclones form as waves along weather fronts before occluding later in their life cycle as cold core cyclones.

At The Cyclone
Two Masses of Air
Hot and cold
Really Quik

At The Cyclone
We have a hit
Soda bank is not scent
it smells badly
We Refresh at the cyclone

(Hey Marian) Verse Two
Tropical cyclones form due to latent heat driven by significant thunderstorm activity, and are warm core. [10] Mesocyclones form as warm core cyclones over land, and can lead to tornado formation.[11] Waterspouts can also form from mesocyclones, but

more often develop from environments of high instability and low vertical wind shear.[12]
Cyclogenesis is the opposite of cyclolysis, and has an anticyclonic (high pressure system) equivalent which deals with the formation of high pressure areasâ€”Anticyclogenesis.[17]

At The Cyclone
Two Masses of Air
Hot and cold
Really Quik

At The Cyclone
We have a hit
Soda bank is not scent
it smells badly
We Refresh at the cyclone

(Joanne Bananas) Verse Three
The surface low has a variety of ways of forming. Topography can force a surface low when dense low-level high pressure system ridges in east of a north-south mountain barrier.[18] Mesoscale convective systems can spawn surface lows which are initially warm core.[19] The disturbance can grow into a wave-like formation along the front and the low will be positioned at the crest. Around the low, flow will become cyclonic, by definition.

I am done
We are Sweet
My arms kiss the original way!

At The Cyclone
Two Masses of Air
Hot and cold
Really Quik

At The Cyclone
We have a hit
Soda bank is not scent
it smells badly
We Refresh at the cyclone

At The Cyclone
Two Masses of Air
Hot and cold
Really Quik

At The Cyclone
We have a hit

Soda bank is not scent
it smells badly
We Refresh at the cyclone
