"Pathway To The Moon"

Visit "[Pathway To The Moon](#)" on MotoLyrics.com

An ocean wind blows soft tonight
A lovers moon lays down it's light
Like a path upon a glassy sea, oh yeah
An invitation for two souls
To see where the horizon goes
The future reaches down for you and me

So take my hand, take this heart
Forever waiting just below the stars
Heavens light will be setting soon
Tonight let's take the pathway to the moon

Seems like we could walk on water
Never sink and never falter
Maybe that is just the power of love
The waves are singing out our song
And before the break of dawn
We will promise to the moon above

So take my hand, take this heart
Forever waiting just below the stars
Heavens light will be setting soon
Tonight let's take the pathway to the moon

Take my hand, take this heart
Forever waiting just below the stars (Just below the stars)
Heavens light will be setting soon (Will be setting soon)
Tonight let's take the pathway (Tonight let's take the pathway)
Tonight let's take the pathway to the moon

Tonight let's take the pathway to the moon
