Pump it up, pump it up, check, check  
Pump it up, come on (Tuff act to follow)

Nobody ever gonna love ya like I love ya baby that's a fact  
Nobody ever gonna love ya (Tuff act to follow)  
Nobody gonna love ya like I love ya baby that's a fact  
Nobody ever gonna love ya

Whatever you want, whatever you need  
Baby you're gonna find it in me  
No other man can give you what I got to give  
All you want you'll find it in me yeah  
Wooooaaaah, your wish is my command baby  
Anything your heart desires  
I'm here for you baby, can't you hear me baby  
Just make a wish and I'll come true

Nobody ever gonna love ya like I love ya baby that's a fact  
Nobody ever gonna love ya (Tuff act to follow)  
Nobody gonna love ya like I love ya baby that's a fact  
Nobody ever gonna love ya (Tuff act to follow)  
I'm a tuff act to follow

I'm the one baby, I'm the one  
I'm the one baby, I'm the one  
I'm the one baby, I'm the one  
Theirs nobody like me

When no one else noticed I was there for you baby  
Right from the start I saw the beauty in you  
Now you've grown up into a lady everybody wants to know  
Hurts to see you with some other guy while I'm all alone

They ain't worth the time, only one thing on their mind  
Promise to be true and they'll end up hurting you  
You can hide from me, you can hide from yourself  
But you know in your heart theirs no hiding from the truth

Nobody ever gonna love ya like I love ya baby that's a fact  
Nobody ever gonna love ya (Tuff act to follow)  
Nobody gonna love ya like I love ya baby that's a fact  
Nobody ever gonna love ya (Tuff act to follow)  
You'll find it in me

Look, look, yo baby look  
Look, I know what you want and I know that I got what you need  
So why don't you stop messing around and just, just, just come over baby  
I'm, I'm calling for you man

Gotta face the facts baby, can't you see the signs  
sugar  
You and me it's meant to be  
Don't deny our destiny

Boogie down, let me get down, I want you down with me  
I got the jump start for that loving heart  
I got the juice for ya, I got the love for ya, I got the need for ya  
Babe it's gotta need me  
I got a free gift so won't you dangle me  
To rumble me, feel me, get with me  
I'm up for all you wanna do so what you wanna do  
I got the wish for ya and yo can I get with you

Nobody ever gonna love ya like I love ya baby that's a fact  
Nobody ever gonna love ya (Tuff act to follow)  
Nobody gonna love ya like I love ya baby that's a fact  
Nobody ever gonna love ya (Tuff act to follow)  
I'm a tuff act to follow babe
