Cause the music makes me feel good
When I see that look on your face
Cause the music makes me feel like you
When I see that look on your face
Cause the music makes me feel good
When I see that look on your face
Cause the music makes me feel like you
When I see that look on your face.

We can bring it back
Bring real music back

We can bring it back
Bring real music back
It might not be everyone's taste

We can bring it back
Bring real music back
___ down to waste

We can bring it back
Bring real music back
It's gonna put that ___ on your face
