Verse 1:

I tell her, I tell her I buy you designer shoes

She said she wants the red one but there's a finer rose

If I could buy time I'll spend the time on you

Don't stop it don't stop it I think its time to go

Just like the green light(green light)

And I can make you blind like a dim light(dim light)

But I can make it seem right(seem right)

Didn't know where to go so I came right(came right here)

I got one, one hundred that's some money

I'm on top of money overlap some money

When you wanna come bring some rubber

Not only for sex but to wrap some money

You bring that shit in slow mo

So we can take it slow

I wash your head like omo

So let's just make it go

Hook:

She can make it go

Bring it high bring it down take it low

Then make it go

She can make it go

Start off going fast but then take it slow

Then make it go

(She make it then it sound like(sound like))x4

Verse 2:

She like it, she like it when I just take it slow

I buy you big cars he can't buy a radio

She give it to me high and she can take it low

Just look at her see how she make it go

I'm in a king fight

If you wear the crown your my queen right
And I can make you scream like
I don't think this is real its a dream right
