Don't you see that you gotta believe?
It's all turning round and I don't know how
Don't you see that it's up to me
To convince you now? But I don't know how

If you look at the screen, real close
You can see it now but I'm not sure why
All I'm asking is you give it a chance
And you hear it now, just give it a try

It's so much brighter on the other side
It's so much better in here
Come on and join us on the other side
And give up what you seem to hold so dear

You've got it all wrong, you've got it all wrong
You've got it all wrong
You've got it all wrong, you've got it all wrong
You've got it all wrong

Oh, how many words is it gonna take
Before you get it right? And I don't know how
And how many scenes will you paint all over
In black or white? But I don't know how

If you look at the screen, real close
You can see it now but I'm not sure why
All I'm asking is you give it a chance
And you hear it now, just give it a try

It's so much brighter on the other side
It's so much better in here
Come on and join us on the other side
And give up what you seem to hold so dear

You've got it all wrong, you've got it all wrong
You've got it all wrong
You've got it all wrong, you've got it all wrong
You've got it all wrong

It's so much brighter on the other side
It's so much better in here

Come on and join us on the other side
And give up what you seem to hold so dear

It's so much brighter on the other side
It's so much better in here
Come on and join us on the other side
And give up what you seem to hold so dear

You've got it all wrong, you've got it all wrong
You've got it all wrong
You've got it all wrong, you've got it all wrong
You've got it all wrong

You've got it all wrong, you've got it all wrong
You've got it all wrong
You've got it all wrong, you've got it all wrong
You've got it all wrong

You've got it all wrong, you've got it all wrong
You've got it all wrong
You've got it all wrong, you've got it all wrong
You've got it all wrong
