You see colors fly around your head  
And you don't know why, you don't know why  
You call out his name and what's left unsaid  
And you don't know why, you don't know why

And with all these clouds high above you  
I guess it's gonna rain  
And there's no one left to love you  
It will never be the same, it's never been the same

Someone said his name and it broke your hearts  
And you don't know why, you don't know why  
You look up at the sky while you kneel and pray  
And you wonder why, you don't know why

And with all these clouds high above you  
I guess it's gonna rain  
Now there's no one left to love you  
It will never be the same, it will never be the same

All alone you count the days  
And all you know just flies away  
[Incomprehensible]  
[Incomprehensible]

Someone said his name and it broke your hearts  
And you don't know why, you don't know why

And with all these clouds high above you  
I guess it's gonna rain  
Now there's no one left to love you  
It'll never be the same, it'll never be the same

It's never been the same, it's never been the same  
It's never been the same, it's never been the same  
It's never been the same, it's never been the same
