Headed for self destruction

One last seduction

Under those flashing lights.

We could be onto something

Short of numbing

Think you know

What I like

What I like

Gimme

What I want

Gimme

'Cause when that Buzz hits

I reach out and touch it

Take me on that roller/roller/roller coaster.

Roller/roller/roller coaster

Roller/roller/roller coaster

Ey-hey

Temperature's almost scorching

I burn torches

Time to put out that fire

We could be epic stories

Just don't bore me

I can make this your night

What I like

Gimme

What I want

Gimme

'Cause when that Buzz hits

I reach out and touch it

Take me on that rolling/rolling/roller coaster.

Rolling/rolling/roller coaster

Rolling/rolling/roller coaster

Ey-hey

Close to the end of the road
and the edge is getting closer, closer

Slow's not the way that we go

We speeding with no brakes

Trynna get to the light

At the end of the night

We're screamin

Oh oh oh oh oh

Oh oh oh oh oh

Oh oh oh yeah

'Cause when that Buzz hits

I reach out and touch it

Take me on that rolling/rolling/roller coaster.

Rolling/rolling/roller coaster

Rolling/rolling/roller coaster

Ey-hey
