it feels like a lonely day  
it seems like a throw away  
and everything is a sad reminder  
of the way we could be together  
it feels like a lonely day  
never ending  
a never ending day  
a never ending day  
there will be a next time  
in my heart in my mind  
I see me beneath you  
before the truth can seep through  
this is so contagious  
and everyday it changesthere will be a next time

shape turns a false display  
hoped for a holiday  
a sequel to the memory of her  
and the day we laid together  
it feels like a lonely day  
never ending  
a never ending  
a never ending  
there will be a next time  
in my heard in my mind  
I see me beneath you  
before the truth can seep through  
this is so contagious  
and everyday it changes  
there will be a next time
