Have a heart, have a heart, have a heart
Sixteen, six, six, six and I know the part
You are the river flow
And we can never know
We're just a weatherman
You make the wind blow

Keep thinking about every straight face, yes
Wonder what your boyfriend thinks about your braces
What about them
I'm all about them
Six sets straight, ace
Cut 'em in the bathroom

So this is it then?
You're here to win, friend
Click, click, settle up see you on the moon then
You're all alone friend
Pick up the phone then
Ring, ring call them up
Tell them about the new trends

So this is it then?
You're here to win, friend
Click, click, settle up see you on the moon then
You're all alone friend
Pick up the phone then
Ring, ring call them up
Tell them about the new trends

Have a heart, have a heart, have a heart
Sixteen, six, six, six and you fell apart
We form a tarot pack
And I'm aware of that
But we could fist fight drunk like the parent trap

Keep thinking about every straight face, yes
Wonder what your boyfriend thinks about your braces
We never blink see
And you can see me
We fell asleep in the middle of the fury

So this is it then?
You're here to win, friend
Click, click, settle up see you on the moon then
You're all alone friend
Pick up the phone then
Ring, ring call them up
Tell them about the new trends

So this is it then?
You're here to win, friend
Click, click, settle up see you on the moon then
You're all alone friend
Pick up the phone then
Ring, ring call them up
Tell them about the new trends

Have a heart, have a heart, have a heart
