In this white wave
I am sinking in this silence
In this white wave
In this silence I believe
[4x]

Release
Witness me
I am outside
Give me peace
[2x]

Passion chokes the flower
'Till she cries no more
Heaven holds a sense of wonder
And I wanted to believe
That I'd get caught up
When the rage in me subsides

In this white wave

I am sinking in this silence
In this white wave
In this silence I believe
[?x]

Release
Witness me
I am outside
Give me peace
[2x]

Passion chokes the flower
'Till she cries no more
Heaven holds a sense of wonder
And I wanted to believe
That I'd get caught up
When the rage in me subsides
