My friends tell me im crazy,  
They say that im strange,  
They tell me ever since i met you ive changed  
I must admitt its true and id go outta my way to do  
Anything for you cause baby i want you to know  
That ive gotten so close  
And i need you to show me a sign  
Because you and I cant afford to waste time  
When its love thats on my mind  
ChOruS: Every second, Every minute, Every HouR  
Its you that ive been thinking of  
'N every day,every week,Every month,Every year With  
you i wanna be in love  
Cause i cant get enough  
Always on my mind  
Yes you are  
I think about you all the time  
I cant eat and I cant sleep I cant think  
Cause all i think about is you  
And how you make me feel inside  
From every little thing that you do

Cause you put a smile on my face

Every time you embrace any place and pull my body  
close to you

But if only you knew all the things that I'd do

For your love I'd stay true

-Chorus-

All i need is a little time and devotion

So that we can be livin' a life of love

For eternity

Cause I dont want to be alone

And my house would not be home

Without you here with me
