[Verse I:]

Try to fight this feeling no matter what I do  
Want this to last forever, can?t stop just wanting you  
Watch me watch you as we dance across the floor  
Haunted by emotions, this flame inside me roars

[Chorus:]

Ooh Aah Come and Rescue Me  
Ooh Aah I need you next to me  
I don?t know how long my body can last  
Need you to catch me I?m falling too fast  
Ooh Aah Come and Rescue Me  
Ooh Aah I need you next to me

[Verse II:]

I?m going crazy we?re dancing so close  
Everywhere I go I see your face I want you more  
So near yet so far it?s driving me insane  
Lost in you something tells me we?re meant to be

[Chorus:]

Ooh Aah Come and Rescue Me  
Ooh Aah I need you next to me  
I don?t know how long my body can last  
Need you to catch me I?m falling too fast

[Bridge:]

I want you  
You want me  
Let?s make this fantasy  
A reality.

(Chorus Out)
