My recollection
I was lookin' in my rearview reflection
U were at the spotlight headin' the other direction
And from that very day you've had my undivided
attention- oh

As I remember
My heart raced and i felt a change in pressure
Then I turned around and I chased u down 4 that num-
ber, boy
That i could call sometimes
But I've got u on my speed dial cause you're heavy on
my mind

[Chorus]
So bad why do i want u so bad
Being without you makes me so sad
Don't wanna be without

Well I'd like 2 get 2 know u well and
Find out why i want u so bad

In my bedroom
I lay awake at night hopin' 2 see u soon
Though you're not even my type I hope that I and u
Can get 2 know each other better
Maybe we can find out why you're always on my mind

[Bridge]
OO u drive me crazy but i want u 4 my baby why why do
i want u

[chorus]
[bridge]
[break]
[chorus]
[vamp out]
