What does it take to keep you, to keep you in my life?
When I sleep at night, I dream visions of us being
together
Always, I love you; I need you here with me all the time

When I think about what I want there's not a doubt on
my mind
Never met a guy like you before, you got me going
crazy inside
No longer afraid to love, you were sent to me from
above
Right here is where I wanna stay
You got me so mesmerized, by your smile, when I'm
with you I fantasize
The joy you bring to me makes life worth living each
and everyday
I long to be with you, just to be close to you
Feels like an answer yea I swear, please tell me

What does it take to keep you, to keep you in my life?
When I sleep at night, I dream visions of us being
together
Always, I love you; I need you here with me all the time

When I dream about my future days and spending
them with you
Nothin else excites me quite as much, then seein you
each morning I wake
The sight of your lovely face, the warmth of your tight
embrace
You're my sunshine through cloudy days
I can't have it any other way, gotta be with you night
and day
I think the world of you so please believe me, when I
say it's true
Never worry, never have a doubt, you share my soul
and all that I'm about
You make my life so sweet baby, just tell me

What does it take to keep you, to keep you in my life?
When I sleep at night, I dream visions of us being

together

Always, I love you; I need you here with me all the time
