On my way back home
I'm slowly breaking down just can't help it
never once been better off without you
and I, I need you more than ever
wanted to stay with you forever and ever
Oh what am I gonna do?

My tears are falling down
and why did we come out today? (no no no)
I've come to find one thing and I'm sure
that you were my girl just yesterday
But now you're miles apart

I'm running out of time
cause soon I gotta find
The ways of living without you, I'm losing my sight
of path we walked through together
and baby tell me how
does it have to be right now?
you're all that I've got all I need
so I'm willing to say a thousand words put together, I
love you.
(I do)
(I love you)

Now you're gone far away
you're so far away from my heart
and I'm so afraid to lose you baby
cause I, I need you more than ever
wanted to stay with you forever and ever
oh what do I have to do, oh

Our world had spun around
but why did we just stop today? (no no no)
it's hard for me to say, cause I'm sure
that you were my girl just yesterday
but we're miles apart

I'm running out of time
cause soon I gotta find
The ways of living without you, I'm losing my sight

of path we walked through together
and baby tell me how
does it have to be right now?
you're all that I've got all I need
so I'm willing to say a thousand words put together, I
love you.

You know I love you right?
can you hear me?
are you there?
I know it's been so long
oh so long
but if you're out there,

here is where you belong
