

One Way

"Give Us A Future"

Visit "[Give Us A Future](#)" on MotoLyrics.com

One more year and nothing changed
Government policies still the same
The futures bleak and life's a bore
So what the fuck are we living for

Give us a future don't you let us down
Give us a future show us some concern
Give us a future don't you watch us drown
Give us a future or we'll put you down

Government schemes a waste of time
Don't pretend to be a friend of mine
You want my vote and tell me lies
Then all i get is victimized

Promises and bullshit is all i hear
Living in danger, not in fear
Won't get my vote that's for sure
Don't come knocking on my door
