Livin' in a riot torn burnt out part of the city
Ain't got no one around who's gonna show you pity
Livin' in a sewer where only rats dare to roam
Ain't got no one tryin' to make you feel at home

Mad youth, you know what you are
A wild youth with no future
Don't you know that you're out of place
There is a future if you can take the pace

One day soon you know your time is gonna come
You ain't trapped on the outside, you gotta run
Petrol bombs aren't the only thing you can trust
Gotta keep running no time for gathering dust
