

## One Way "Reality TV"

Visit "[Reality TV](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Pictures flash, images sold  
No sense, no thought, just behold  
Star-spangled messiah struts the tube  
Makes life easy just for you  
Mr. no lips fights the wips  
Liam and Patsy's wedding bliss  
Dobbin beats the I.R.A.  
(That's what happened just today)

That's what happened yesterday  
The more I watch, the more I stay  
Something happened yesterday  
I find it hard to break away

That's what happened yesterday  
The more I watch, the more I stay  
Something happened yesterday  
I find it hard to break away

Six numbers in, you'll miss the draw  
Dream and spend, you watch some more  
Evans got the car I need  
Escape to virtual reality  
A sterling show by the pound  
Calvin's stink is well renowned  
The weather's dull it's fair to say  
(That's what happened just today)

That's what happened yesterday  
The more I watch, the more I stay  
Something happened yesterday  
I find it hard to break away

That's what happened yesterday  
The more I watch, the more I stay  
Something happened yesterday  
I find it hard to break away

Your favourite seat confronts the box  
Remote control will help us watch  
Technicolour overload keeps me in

Time and time and time again  
Just sit there we'll be right back  
The sense to move is what you lack  
You want to view you'll have to pay  
(That's what happened just today)

That's what happened yesterday  
The more I watch, the more I stay  
Something happened yesterday  
I find it hard to break away

That's what happened yesterday  
The more I watch, the more I stay  
Something happened yesterday  
I find it hard to break away

The votin's stopped it seems all Blair  
Another day you're anchored there  
Midnight again, you've just sat down  
Last week's image just popped round  
A thousand ways to spend a thought  
Am I hip or missed the boat?  
Into the net coz that's the way  
(That's what happened just today)

That's what happened yesterday  
The more I watch, the more I stay  
Something happened yesterday  
I find it hard to break away

That's what happened yesterday  
The more I watch, the more I stay  
Something happened yesterday  
I find it hard to break away -- away
