It's not just a game to me  
Look at all those happy players!  
Oh, they're standing close to me  
I don't mind being picked last  
If I can be on the winning team  
I'd like to be on the winning team  
They say it's how you play the game  
I don't think I'd like to lose  
But I know I'd like to win  
I don't really like games at all  
But I don't mind holding the ball  
If I can be on the winning team  
It's not just a game to me  
Look at all those happy players  
I'm one of the worst athletes  
You could have found  
But I don't mind running around  
If I can be on the winning team
