Look across the land
What was green with sand
It's all got out of hand
The sea is full of shit
No-one to admits to it
Just my frame of mind
Toxic fumes are in the air,
Ask questions -- no-one cares
Who's values, mine or theirs?

Standing on the outside looking in
Search your soul, children of a nation
Global corrosion -- its a sin
Search your soul, children of a nation
Seeds of destruction have been sown again
Search your soul, children of a nation
Together we stand, ease the pain
Search your soul, children of a na-na-na-na-nation

Vision of decay -
All mankind will pay
Waiting for the day
One man's stand against
The making of the plan
The future's in our hands
Mornings broken
And the world's awoken
To a better place

Standing on the outside looking in
Search your soul, children of a nation
Global corrosion -- its a sin
Search your soul, children of a nation
Seeds of destruction have been sown again
Search your soul, children of a nation
Together we stand, ease the pain
Search your soul, children of a na-na-na-na-nation

???

???

Nothing happens
Question's asked

Still no answers
What is the fucking point?
What is the fucking point?

Standing on the outside looking in
Search your soul, children of a nation
Global corrosion -- its a sin
Search your soul, children of a nation
Seeds of destruction have been sown again
Search your soul, children of a nation
Together we stand, ease the pain
Search your soul, children of a na-na-na-na-nation
Nation, nations unite
