Light your signal flare in the air  
I need to find you, hospital white glare  
Are you there? This is the rescue

Collapsed out in the rain, lost in the dark  
Surrounded by the trees with no landmarks  
So now you're out of sight  
Blood draining till you die  
You won't make it through the

Light your signal flare in the air  
(In the air)  
I need to find you  
Hospital white glare, are you there?  
(Are you there)  
This is the rescue

Let us begin the surgery tearing you apart  
We need to fix the valve on your failing heart  
I hope I blocked the pain, I hope we're not too late  
Don't you dare give up

White noise. In the air, buried in the layers  
Disarmed by the sound of the signal that I found

This is the rescue  
Then the warnings and the flat line  
Paint the picture of my mistake  
White noise in the air buried in the layers

White noise. In the air, buried in the layers  
Disarmed by the sound of the signal that I found  
This is the rescue

Then the warnings and the flat line  
Paint the picture of my mistake
