Every man is looking for something
maybe you're that something that I need
every girl is hoping for someone
I'm wondering if that someone could be me
I know that you've been through pain girl
seems you need to get back on your feet
so I'm trying to be your savior
cause it seems to me that you need rescuing

Chorus:

I'm the type of guy you need in your life
so take my hand girl I'll make it right
and make me feel like a man, like a man
girl I'll do anything that I can
why can't you understand, understand how it feels
when saving you makes me feel like a man

you're my most prized possession
the best thing that I have in my life
all I have to offer is protection
plus you can count on me because I
put a smile on your face
anytime of the day I'll be there
anything that you need you can call on me
I'll be there

Chorus:

I'm the type of guy you need in your life
so take my hand girl I'll make it right
and make me feel like a man, like a man
girl I'll do anything i can
why can't you understand, understand how it feels
when saving you makes me feel like a man

and make me feel like a man like a man
girl I'll do anything i can
why cant you understand understand how it feels
when saving you makes me feel like a man (x2)
